
Correa plana: $\ln(T_2/T_1)$ vs θ
$y = m\,x + n$
$m = 0.2537 \pm 0.0009$
$n = -0.0057 \pm 0.0028$
$R^2 = 0.999923$
$N = 8$
$\ln(T_2/T_1) = \mu\,\theta$
$m = \mu$
$n \approx 0$ (paso por el origen)
