
Correa trapezoidal: $\ln(T_2/T_1)$ vs θ
$y = m\,x + n$
$m = 0.7277 \pm 0.0029$
$n = -0.0020 \pm 0.0065$
$R^2 = 0.999952$
$N = 5$
$\ln(T_2/T_1) = \dfrac{\mu}{\sin\alpha}\,\theta$
$m = \mu/\sin\alpha$
$\alpha = 20$, $\sin 20 = 0{,}342$
